Greeting from TSK Group !

REKHA KADAM
(Director)

I am working as a Director, handling portfolios' like HR, Administration and Finance department of our **TSK Group** of companies under the banner of **TSK Group** namely” **STAR FIRE SYSTEMS PVT LTD** “,” **LAUREN FABTECH INDIA LLP**” & “**STAR PROJECTS INDIA**”. All three companies have their individual Board of Directors. My responsibilities for my group of companies are very vital because the portfolios which I am handling is considered the backbone of an organisation so it is very important for me that I should have a very clear vision for providing very clear roles and responsibilities to my subordinate employees who are responsible for obtaining the key results. I am very determined about carrying out our daily missions and have a very clear goal that at the end our client should be satisfied with our services. This helps the company to have a repeat client base. As an administrator, sometimes I need to be very strict about my company policies, rules and regulations to maintain the discipline among my subordinates. I make sure that each and every body working under me should be accountable for what he / she is doing.

We have done Massive projects, received many awards and recognitions, been complimented by industry big tycoons etc. This all recognition which my company and I have gained is the result of hard work and dedication of our entire team

I am very passionate about my work which I do. I work tirelessly to fulfil and achieve my targets. We provide best customer service that keeps our existing customers loyal to our business, A lot of business challenges came my way. But I cross those challenges with zeal and hard work Perseverance is most important thing to meet the big challenges. Remaining calm and positive helps in analysing the situation and find solutions. I'm always looking forward to challenge myself and Enthusiasm. My passion inspires me and everyone around me.

For me professional success is framed on three key elements clarity of purpose, growth, mind-set and courage. Without purpose it is hard to have a clear direction, it is important to know what you want and what you are striving for. I feel that aligning the company's vision and values with my own is one way to achieve Professional success.

Warm Regards,
REKHA KADAM (Director)

We Define The Limits Of Fire...

MESSAGE FROM CHAIRMAN AND MANAGING DIRECTOR

Greeting from TSK Group !

I extend sincere gratitude to our valued clientele, suppliers, bankers, and dedicated employees. Your support has been instrumental in our successful journey in the service industry.

TSK Group stands out like the luminance of the moon, offering cost-effective solutions that leave a lasting impression. Our reputation is our foundation, and we are committed to exceeding client expectations, innovating, and delivering excellence.

At TSK Group, we build strong client relationships by understanding their vision and objectives. We aim to be a trusted advisor, fostering long-term partnerships and growth through repeat business opportunities.

Our flagship company, "**STAR FIRE SYSTEMS PVT LTD,**" has been a leader in fire protection for two decades, receiving national and international awards. In the financial year 2022-23, our group projects a turnover was of 100+ crores. The company have '**A' Class Certification** from Govt. of Maharashtra for FFS & FDS.

Diversifying our expertise, "**STAR PROJECTS INDIA**" was established in 2017, focusing on MEP work for turnkey solutions in fire, electrical, plumbing, and HVAC. With the support of our team and clients, we aspire to achieve excellence in this sector.

Our manufacturing unit, "**LAUREN FABTECH INDIA LLP,**" produces 1000+ doors monthly, certified for 2 hrs. fire rating by CBRI. The unit is also licensed by the Maharashtra government for all fire passive systems.

Investing in our people and fostering a positive work environment is a priority. We aim to retain and attract top talent to meet and exceed client expectations.

TSK Group is dedicated to becoming a world-class service provider for the Residential, Commercial, and Industrial sectors. Our new ventures aim to provide non-traditional growth opportunities.

Best wishes to you and your families from the management and corporate teams of TSK GROUP of companies.

Warm Regards,
TUSHAR SARJERAO KADAM
(CMD of TSK Group of Companies)

TUSHAR SARJERAO KADAM
(CMD of TSK Group of Companies)

✓ Fire Fighting Automatic Sprinkler Systems.

✓ Fire Water Reservoir Tanks Pre Fab , Under Ground Rcc .

✓ Public Address System

✓ Building Security System

✓ Fire Detection & Alarm System

✓ HVWS-MVWS – Gas Suppression Systems.

We Define The Limits Of Fire...

OUR PRODUCTS

Fire Hydrant Systems

A Fire Hydrant, also called Fireplug, is a connection point by which firefighters can tap into a water supply. It is a component of active fire protection.

The water inside a charged hose line causes it to be very heavy and high water pressure. We provide a comprehensive range of fire hydrant systems that are commissioned on a turnkey basis. These fire systems can easily detect fire in the initial stage and can be controlled automatically by dialing to the fire brigade authority.

Sprinkler Systems

A fire sprinkler system is an active fire protection method, onto which fire Sprinklers are connected.

Although Sprinkler System used in Factories, Ware Houses, Storage areas, High Rise Residential buildings, Commercial buildings, homes and small buildings, over 96% of area were controlled by fire sprinklers alone.

OUR PRODUCTS

Fire Pumps

A fire Pump is a part of a fire Hydrant & sprinkler system's water supply and powered by electric, diesel or steam. The pump intake is either connected to the public underground water supply piping, or a static water source (e.g., tank, reservoir).

The pump provides water flow at a higher pressure to the sprinkler system Risers and Hydrant Hose standpipes. Fire pumps function either by an Electric motor or a Diesel engine, or, occasionally a steam turbine. Types of pumps used for fire service include: horizontal split case, vertical split case, vertical inline, vertical turbine and end suction.

Fire Pump Panel

A Fire Control Panel, when there's a call to start a fire pump in an emergency situation, you need to have pump controller that you can count on to start every time, without fail – because life safety depends on it.

The devices within a fire pump controller panel perform such functions as receiving signals from alarm devices, such as pressure operated switches, sprinkler alarm valves or remote fire alarm equipment; activating motor control devices to provide electric power to motors driving fire pumps and monitoring the fire pump.

Fire Extinguisher

A Fire Extinguisher, or is an active fire protection device used to extinguish or control small fires, often in emergency situations.

It is not intended for use on an out-of-control fire, such as one which has reached the ceiling, endangers the user (i.e., no escape route, smoke, explosion hazard, etc.)

Fire Alarm & Detection System

A fire alarm system is number of devices working together to detect and warn people through visual and audio appliances when smoke, fire, carbon monoxide or other emergencies are present.

These alarms may be activated automatically from smoke detectors, and heat detectors or may also be activated via manual fire alarm activation devices such as manual call points or pull stations.

STAR PROJECTS INDIA

Star Projects India is one of the fast growing MEP Company . Star Projects India deals in design to build concept for project executions. We have an expertise in Mechanical, Electrical, Plumbing, HVAC works.

We provide a complete solutions regarding MEP to Industrial, Commercial and Residential projects. We have highly qualified and trained professionals for the same .They have an in depth experience and can take up any challenges in this field. For success of any project the three things are very vital firstly expertise manpower, secondly quality coordination and thirdly timely execution of projects.

At Star Projects India we always deliver projects in time by using the latest technology .we do not compromise on quality, safety and sustainability.

Star Projects India believe in long term relationship with all our customer and suppliers. We are always open for Trends, challenges, technology and standards. We have the engineering capability and domain expertise to simplify complex project and build or design optimum solutions as per our customers' needs and requirements.

Industrial Services

Imagine yourself in the most fabulous building in the world. Now take away the lighting, heating and ventilation, the lifts and escalators, acoustics, plumbing, power supply and energy management systems, the security and safety systems.

Everything inside a building which makes it safe and comfortable to be in comes under the title of 'building services'. A building must do what it was designed to do - not just provide shelter but also be an environment where people can live, work and achieve. Building services are what makes a building come to life. That is what we are doing in Star Projects India.

MEP CORE DELIVERIES

Mechanical Services
✓ HVAC – Heating Ventilation & Air Conditioning
✓ Refrigeration
✓ Fire Protection
✓ Hydrant – Sprinkler - Pumping – Water Spray Deluge – Gas Suppression Systems
✓ Fire Detection & Alarm System
✓ Public Address System.
✓ Compress Air System.

PHE Services - Plumbing Services
✓ All Water System
✓ All Piping & Sanitary Fixtures That Provide Water For Any Use
✓ STP –ETP- WTP Plant

Electrical Services
✓ Electrical HT & LT Power Distribution
✓ Lighting
✓ Earthing & Lightning Protection
✓ Access Control System
✓ CCTV & Monitoring System
✓ Building Security System

PEB - PRE ENGINEERING BUILDING

MECHANICAL SERVICES

MECHANICAL Whether it's a food industry trying to keep its food refreshed or a construction industry wanted to keep its building the safest place to live within, environment plays a very important role. And at Star Projects we shape this environment through our range of products such as

INDUSTRIAL STORAGE TANKS

PRE FABRICATED STEEL WATER TANKS | ZINCALUME STEEL BOLTED LINER TANKS

These Tanks Are Fabricated Using The Highest Grade Of "Zincalume Steel" As Moc, Which Lasts Up To Four Times Longer Than Galvanized Steel Zincalume Steel, A Premium Material Complies With Requirements Of Indian Standard – Is 15961, International Standard – ISO 9364, Australian Standard – As 1397 & American Standard – ASTMA 792 m

Zincalume Steel Is Manufactured By A Continuous Hot Dipped Metallic Coating Process. The Alloy Coating Of Zincalume Steel Provides Excellent Corrosion Resistance And Has Been Found To Possess Greater Resistance To Cracking And Peeling. Zincalume Steel Has An Alloy Coating Of 55% Aluminum, 43.5% Zinc And 1.5% Silicon. The 150g/m² (with Option Of 200g/m²) these Tanks Are Used For Various Application Like Fire Water , Raw Water Drinking Water , Domestic Water And Many More.

LAUREN FABTECH INDIA LLP

ISO 9001-2015 Certified Company

We work relentlessly to create world-class products that ensure optimum customer satisfaction levels. We started our journey in India, Maharashtra Pune as a Manufacturing for G I Fire Doors , We have developed a reputation for excellence in the Indian market with high quality products, prompt delivery, and a service paradigm that has become an industry benchmark , with a capacity of 1000 doors Sets .

Our **ISO 9001-2015 Certified** manufacturing facility at Jambhulwadi Near Bangalore Express Highway Pune Location , All our doors come with varied options in ironmongery, sizes and finishes, incorporating the latest global standards in safety and security, also followed the building Norms like IS -3614 art -2& B5 Parts 20 & 22, ASTM E - 152-81a. We provide **CBRE Certified** Fire Doors. We are also awarded '**A' Class Licence** from Govt. of Maharashtra for Passive Fire Protection.

LAUREN Service spectrum goes beyond assisting ,clients in project schedule and also facilitates delivery and installation of products through extensive Network of trained Skilled Service Team. Our vision is to introduce products and services that enrich customer experiences in the residential, commercial and industrial spaces. With an underlying motto – a good reputation must be earned – we continue our journey to strengthen our reputation as India's leading door brand, built on the foundation of innovation, quality and customer fulfilment.

LAUREN FABTECH INDIA LLP
